# Nelwin George

+91 7025665927 | nelwinn@gmail.com

A Computer Science enthusiast and self-taught developer currently doing his masters at College of Engineering, Trivandrum. A quick learner when it comes to software development. Constantly trying to improve myself, I am currently learning and building projects using new technologies like Golang, React.js and Node.js

## *Technologies and Languages*

- Python, Golang, React, Node, Express, Javascript, CSS, HTML
- Linux, Git, AWS, GCP, Docker, MongoDB

## *PROJECTS*

**Chopsticks Game**
- An Intelligent system that plays the famous 'chopsticks game' with the user
- Built using python, captures and analyses hand gestures of users to find an optimal counter move.

**Cryptocurrency Price Tracking**
- A Telegram bot that tracks price changes of crypto currency tokens and sends out alerts
- Developed many other similar telegram bots and deployed them on AWS

**BotMaa - Web Framework To Create Customised Telegram Bot**
- Website built in React that allows users to create their own customised community manager bots without having to code one on their own

## *EDUCATION*

**College of Engineering, Trivandrum** – Post Graduation
Master of Computer Applications, 2021 – 2023 May
*SGPA*: 7.73

**St. Joseph's Academy of Higher Education & Research** – Graduation
Bachelor of Computer Applications, 2018 – 2021
*SGPA*: 6.65

**St. George's Higher Secondary School** – Higher Secondary
Computer Science, 2016 – 2018
*SGPA*: 6.65

**St. Mary's Higher Secondary School** – SSLC
2016 – 2018
*Score*: 90%

## *EXPERIENCE*

**Python Coder:**                              2018 – Aug 2022

- Developed, delivered and deployed projects and scripts with maintainable and readable code as a coder on Fiverr
